MODULAR SOLUTIONS FOR A NEW
CUSTOMER

STATE MODULAR

CONCEPT

Remarkable simply means, worth making a remark about.

In the day and age of online guest reviews and social media it's what the success of a hotel completely revolves around.

CUSTOMER

Millennial guests are both self-sufficient and tech-savvy and unsurprisingly have high expectations regarding reservations, décor and customer service.

Hotels have acknowledged the need to build better relationships with their millennial guests.

ABOUT US

State Modular is a construction management company specialized in residential and commercial modular construction projects. Our innovative product line provide the highest quality and design for smart space solutions.

State Modular's multidisciplinary team counts with many decades of experience in housing, architecture, engineering, management, and technology, which ensure that every project is completed and installed to every individual client's tailored request.

HOTEL MODULES

Multi room buildings designed for hotel accommodation and administration are delivered in prefabricated sections for final on-site setting.

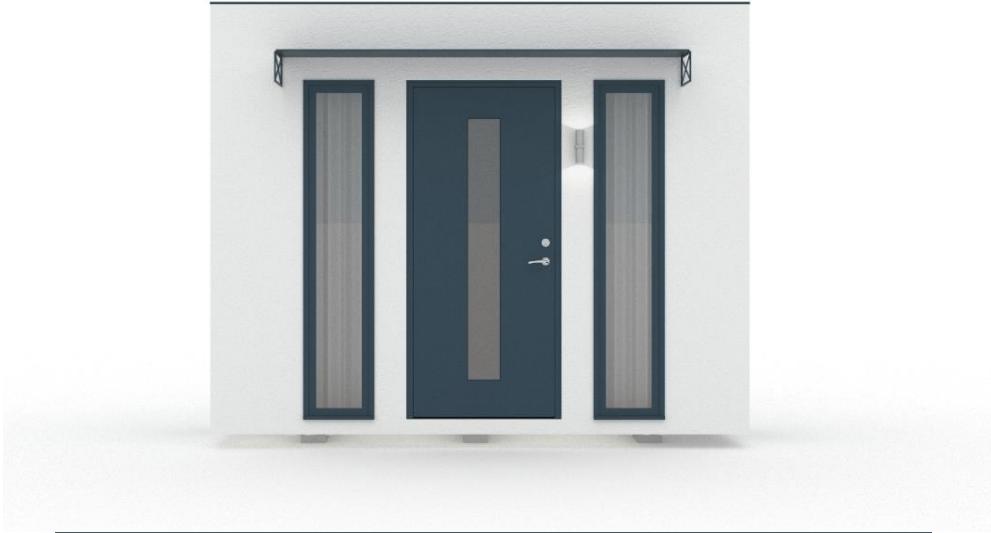

Prefabrication offers flexibility and cost savings which are increased dramatically.
